Juffrouw Janssen // Dutch courses for professionals

Hi all! My name is Lisa Janssen and I teach Dutch as a First and Second Language in both group courses and private lessons. I studied the Dutch Language and Culture at the University of Amsterdam where I now work as a Dutch lecturer. Furthermore, I develop and teach corporate courses and workshops for several start-ups, financial, real estate, and IT companies in the Netherlands. I enjoy working with students from all over the world, as I meet new and inspiring people every month.

Interactive and tailor made courses

My aim is to create a safe learning environment where students can speak and learn without inhibitions. This includes taking my students to the market or a bar, or organizing other field trips, and making sure my practice exercises are tailored to my student's living and working environments.

Develop different skills

To learn Dutch, it is important to listen to Dutch songs (big fan..) and conversations, read Dutch articles and speak Dutch as much as possible. Writing informal emails in Dutch is a great way of practicing too, and in the more advanced-level classes my students will also spend time on refining their writing style and fine-tuning a text until it is clear and concise.

Cultural exchange

My courses also encourage the exploration of different cultures. Of course, Dutch cuisine is not as inspiring as some dishes from around the world, but we can always exchange recipes! My primary concern is that my students enjoy the classes and are inspired to develop their language skills, from speaking their first words to developing a fluent style of writing.
