

2018 ABROAD

WITH JUFFROUW JANSSEN

Caribbean Summer & Fall in the Mountains

Bon dia to all of my clients, students, colleagues, friends, and family! I think it is about time to send you all an update about my Summer and Fall projects and adventures, as well as upcoming events and course options.

As many of you may know, I have been travelling a lot this year, teaching my students from all over the world and designing tailor-made interactive courses.

This summer I coordinated and taught the 10-day *Zomerschool Nederlands* at the University of **Aruba**. It was a great experience and I think we all learned and laughed quite a lot. Curious about the role of the Dutch language in the Caribbean? Check out this interesting (Dutch) [video](#). In October I went to **Austria** for the [Dentistry project for DPA](#). The surroundings were even more beautiful than when I was there in January! Take a look at the beautiful pictures of the landscapes, as well as my hardworking and sweet students on [Facebook](#) and [Instagram](#).

New and Improved: Online Courses

Being abroad has been great, but of course my students in Holland missed me. Luckily, I was able to teach the individual and duo courses online via [LearnCube](#) or Skype.

Did you know that online classes have a lot of advantages?

- We can plan your classes just before work or during your lunch break so nobody loses travel time;
- With new and improved teaching technology, it is easy to share files, watch videos together, and draw and type on online whiteboards;
- It is possible for me to teach two people from different locations at the same time. Business trip or traffic jam? No problem!

For more information contact me directly at Lisa@juffrouwjanssen.info or +31628412110 and check www.juffrouwjanssen.info for pricing details.

The first Beer & Career event at Brouwerij 't IJ was very 'gezellig' and productive. You are all invited to join the winter edition in January!

Business and pleasure: Juffrouw Janssen is all about this perfect combination!

As I teach so many interesting students from different cultural and professional backgrounds, I also like to host informal networking events. What is better than relaxing and meeting great new people at the same time?

In June I hosted my first Beer & Career drinks. What a fun afternoon for all my Dutch and expat friends! It was a great success, so I am looking forward to a Winter Edition in January 2019.

Would you like to taste the best craft beers in town in a relaxed atmosphere and meet like-minded internationals and Dutchies?

Maybe you are new in town and you are interested in expanding your professional network. Maybe your start-up is expanding and you are looking for new professionals to join your team. Maybe you are just looking for a nice conversation or a workout buddy.

Like my Facebook page and I will keep you posted about the Winter Edition!

New year Dutch resolution? Start @ Juffrouw Janssen

Right now, I am on a 4-week road trip through Europe with my husband and our 20 year old loyal, small, and brave car. From December on I will be back in town and I am planning on staying for a while. Any new year Dutch resolutions? Please don't hesitate contacting me! Some reasons to think of me:

- As I am a very small school, I personally design my courses for my students. Do you have an idea and can you form your own group? Let's make it work!
- I specialize in company courses and I personally teach most of my courses during office hours.
- I know how to help you with basic and business Dutch, with limited time and maximum effort.
- Do you like to learn in the morning? Me too! I teach all my Early Bird courses at your company, my school, or online with great pleasure and energy.

Thank you all for reading and I hope to be in touch soon for fun and/or business!

For more information about me and my courses, please contact me at Lisa@juffrouwjanssen.info or +31628412110.
